APPROVAL OF DRAFT ADDENDUM 01 TO THE SAMPLING AND ANALYSIS PLAN (FIELD SAMPLING PLAN AND QUALITY ASSURANCE PROJECT PLAN) SUPPLEMENTAL SAMPLING FOR THE REMEDIAL INVESTIGATION - NAVAL BASE VENTURA COUNTY, PORT HUENEME FACILITY, PORT HUENEME, CALIFORNIA (SLIC NO. 282, PCA NO. 16547)

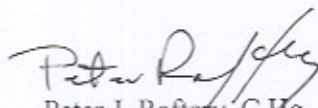

Dear Mr. Gonzales:

Los Angeles Regional Water Quality Control Board (Regional Board) staff have reviewed the August 2006, *Draft Addendum 01 to the Sampling and Analysis Plan (Field Sampling Plan and Quality Assurance Project Plan) Supplemental Sampling for the Remedial Investigation, Construction Battalion Center Port Hueneme, Port Hueneme, California* (Addendum). The Addendum, prepared by SulTech, was received by the Regional Board on August 14, 2006. The Addendum outlines proposed tasks related to surface soil sampling at 50 non-industrial areas of the base. The samples will be analyzed for polynuclear aromatic hydrocarbons (PAHs), and the results used to determine background PAHs concentrations.

The Addendum is approved, with the comment that the title of the document does not clearly indicate the subject. The Regional Board maintains a reports-received database. Accurate report titles are important for the database to be useful. Please have report titles clearly indicate report contents in the future.

If you have questions related to this project, I can be contacted at (213) 576-6724 or via email at praftey@waterboards.ca.gov.

Sincerely,

Peter J. Raftery, CHG
Engineering Geologist
Site Cleanup I Unit
